

Introduction:

- We have been in the textile business for more than 3 decades having our own processing / dyeing & printing mill in Faridabad.
- To consolidate our strength, we have our team of dedicated weavers who weave the fabric for us.
- We constantly work towards providing quality products at very competitive prices & providing exceptional after sales service

Our Strength...

- All our operations are governed by high standards of business ethics and integrity.
- Our technical team has been a vital key to our growth over the decades.
- The technical team in the organization has been scrupulously selected to fulfil highly specialized tasks
- The organization tries to give its people a clear sense of their individual contribution to the overall performance of the company. After all they are not employees, but partners.
- Besides, our in-house design studio works closely in tandem with the market trends and buyer's specification to deliver optimum satisfaction to our esteemed clients.
